David Williams
US Army Corps of Engineers
P.O. Box 6898
JBER, Alaska 99506-0898

Dear David Williams,

We are writing to inform that Shishmaref has received funds from the Denali Commission which can be used as a local match for Corps of Engineers Section 116 projects. We want to restart and complete the coastal erosion protection that the Corps was doing under Section 117. These funds from the Denali Commission will allow us to cost-share for the design of this work, and reevaluate the requirements based on the existing information.

We are willing and eager, as the project sponsor, to come to an agreement with the US Army Corps of Engineers to move forward with our projects, Flood Study and Revetment Design. Please prepare the required documents and coordinate with me to obtain signatures and resolutions as required to expedite this action.

Please contact me at the above contact information if you have any questions. Thank you for your time and consideration.

Sincerely,

Annie Weyiouanna
Local Coordinator

CC: Native Village of Shishmaref Council
